

INFO TECNICHE CLICK DATA SHEET

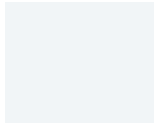

Ante realizzate in tamburato di abete con spessore 2,5 cm. Fissate lateralmente tramite cerniere ad attacco automatico e montate sul telaio in listellare di abete di dimensioni 10,5x3 cm. Il telaio forma un'architrave che viene bloccata a muro. Attenzione: non consente nessun tipo di regolazione. A completamento sono previste fasce di compensazione e coprifilo laterali e superiori. Maniglia di serie incassata. Nella versione a libro è completata da binario di scorrimento in estruso di alluminio.

Doors made of hollow-core fir with a thickness of 2.5 cm. Secured laterally by means of automatic hinges and mounted on the fir blockboard frame with dimensions 10.5x3 cm. The frame forms an architrave that is blocked to the wall. Warning: it does not allow any type of adjustment. To complete, compensation bands and side and top cover strips are provided. Standard built-in handle. In the book version it is completed by a sliding track in extruded aluminum.
